

# **I cook ...**

## **... for your community group**

**Many groups are now booking me for seasonal events so that the same few people are not responsible for catering for the whole community every time**

**I can provide a cost effective service so the cost is shared by the community and everyone gets to enjoy the event**

**Depending on your venue all of my menus may be suitable for your event so here are just some general points for information**

**I can cater for up to 100 in a village hall or similar venue depending upon the menu chosen**

**For a hot meal a buffet style service works well and is the easiest way to serve a large number but waitress service is also available if required**

**I can supply crockery, cutlery, tablecloths and glasses if needed**
